University Action Plan to Reduce Plastic Waste on Campus

Universitas Negeri Padang (UNP) has established an institutional policy to reduce plastic waste on campus through **Rector Regulation of Universitas Negeri Padang No. 10 of 2023 concerning Environmentally Friendly Campus Management**. Chapter III, Article 3, explicitly addresses the prohibition and reduction of single-use plastics as part of the university's commitment to creating a more sustainable campus environment.

Rector Regulation of Universitas Negeri Padang No. 10 of 2023 concerning Environmentally Friendly Campus Management

The regulation restricts and reduces the use of several single-use plastic products, including plastic drinking water packaging, single-use plastic bags, plastic food wrappers, plastic-based eating and drinking utensils, and plastic-based backdrops, banners, and promotional materials. These measures are implemented in line with the principles of **Reduce, Reuse, Recycle, and Reject (4R)** to encourage responsible resource consumption and minimize plastic waste generated by campus activities.

In addition to establishing a formal regulatory framework, UNP promotes awareness of plastic waste reduction through educational posters displayed on campus. These communication materials encourage members of the university community to limit single-use plastic consumption and adopt more environmentally responsible practices in their daily activities.

Through this regulation and its supporting awareness-raising initiatives, UNP has established an institutional framework for reducing plastic waste on campus. The policy provides a basis for integrating plastic reduction into campus operations and encouraging the participation of students, lecturers, administrative staff, and other campus users in building a cleaner and more sustainable university environment.

1 Program "Bring Your Own Tumbler" di area kampus.

(Reduce)

Kecilkan Sampah, Besarkan Dampak!

2 Pemakaian Gelas Kaca untuk wadah minum pada pertemuan Departemen.

(Reduce)

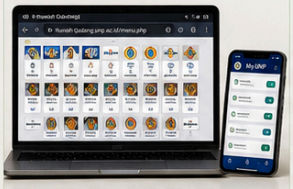

3 Penyediaan dispenser air minum isi ulang di beberapa titik strategis.

(Reduce)

4 Penggunaan sistem digital untuk administrasi akademik dan surat-menyurat guna mengurangi konsumsi kertas seperti E-SURAT untuk administrasi perkantoran, SIMTA untuk bimbingan dan proses tugas akhir mahasiswa, My UNP untuk presensi dosen, tendik dan mahasiswa, LMS-SMILE untuk pelaksanaan kuliah secara asynchronous.

(Reduce)

Digitalisasi untuk Efisiensi dan Lingkungan yang Lebih Baik

5 Pemakaian Double Side Kertas.

(Reduce)

Hemat Kertas, Selamatkan Hutan

6 Pemakaian Reusable Bags.

(Reuse)

7 Bank Sampah Adiposa UNP.

(Recycle)

8 Program Pembangunan "Recycle Point" di area terbuka berupa keranjang jaring besar (cage bin) untuk botol plastik dan kaleng.

(Recycle)

9 Program Pengolahan Sampah Organik melalui Ecoenzyme.

(Recycle)

10 Program Pengolahan Sampah Organik melalui Komposting.

(Recycle)

11 Program Pengolahan Sampah Organik melalui Biopori.
